

## **Meeting Between Staff of the Federal Reserve System and Federal Reserve Board and Juniper Payments**

March 25, 2019

**Summary:** Staff of the Federal Reserve Board and Federal Reserve System met with representatives of Juniper Payments to discuss topics related to potential actions the Federal Reserve could take to facilitate real-time interbank settlement of faster payments. Juniper Payments representatives discussed how APIs could help simplify the process of implementing faster payments and the value they might bring. They also spoke about the value the liquidity management tool could provide the payments industry. Lastly, they discussed demand from their customers for faster payments.
